

### Vehicle becomes Mobile Power Station

The vehicle to load mobile power station function allows the vehicle to be transformed into a super mobile power bank, which supports power up to 3.3kw, satisfying most high-power electrical appliances, outdoor coffee and tea, allowing you to enjoy a new comfortable driving experience.

### e-Platform 3.0

The highly integrated platform which is exclusively designed for the next generation of pure electric vehicles, deeply integrated with the Blade Battery, Wide Temperature Range High Efficiency Heat Pump System, and other core technologies.

### Robust Body Steel Structure

Technological advancements and high strength body structure for safety change every journey more than ever before.

### BYD Blade Battery

Cutting-edge battery technology that prioritizes high safety standards. This innovation aims to propel vehicles further while instilling confidence in every journey taken, emphasizing reliability in all aspects.
